

Joint Conference:
 MFPT 2015 and ISA's 61st
 International Instrumentation Symposium
 Technology Evolution: Sensors to Systems for Failure Prevention
 The Westin, Huntsville, AL • May 12–14, 2015

STOP PRESS!

This information and other updates will be posted at the Registration Desk and at www.mfpt.org/mfpt2015/updated.pdf

Wednesday, 13 May - Morning

Session B2
 Mediterranean
 Ballroom VI

MFPT Paper
 Session
**Condition Based
 Maintenance**

11:30 AM *Pattern Tracking for Predicting Unscheduled Maintenance Actions of Military Ground Vehicles, James Kozlowski, Penn State Univ/ARL*

Presentation Moved from Session A5, Presented by Scott Pflumm

Thursday, 14 May - Morning

Session A4
 Mediterranean
 Ballroom V

MFPT Paper
 Session
Sensors

9:00 AM *Fiber Optic Sensors for Harsh Environment Applications, Scott Hoover, Oxsensis Ltd*

Presentation Cancelled

Thursday, 14 May - Afternoon

Session A5
 Mediterranean
 Ballroom V

MFPT Paper
 Session
Prognostics

2:00 PM *Pattern Tracking for Predicting Unscheduled Maintenance Actions of Military Ground Vehicles, James Kozlowski, Penn State Univ/ARL*

Presentation Moved (See Above)

2:30 PM *Condition Prediction Using Degradation Feature Extraction with Variational Mode Decomposition, Chao Liu, Department of Thermal Engineering, Tsinghua University*

Presentation Cancelled

The **Sensors Focus Group Meeting**

will be held in Mediterranean Ballroom V at **5:00 pm** on **Wednesday, 13th May**

We invite all those interested in Sensors for a discussion on the challenges and issues of sensor measurement for health management and monitoring and to select topics for next year's MFPT
